TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 5 Other:

On 09 August 2006, a restriction was placed against the claims. On 18 September 2006 applicant elected the invention corresponding to Group I, claims 1-24 and 27-32, with the election of structure corresponding to then claim 9. In the response of 19 January 2010, applicant added new claims 34-37. A review of the response fails to identify where applicant has indicated which, if any, of the newly-added claims read on the elected invention. MPEP 809.02(a).

As set forth under 37 CFR 1.111(b): "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references." A review of the response fails to find where applicant has pointed out the specific distinctions believed to render the newly-presented claim(s) distinct over any applied references.
